The SACC Exhibition and Convention Centre (SACC EXPO Centre) will facilitate the state's development.

Located at the PKNS Complex in Precinct 9, this strategic location has buildings like SIRIM, SACC Mall, MBSA and Plaza Perangsang within walking distance. Situated on a 2.54-acre plot of land, this building will encompass a built-up of more than 200,000 sq ft.

This centre will house a main function hall, office units, seminar rooms, auditorium and a parking lot. Other than playing host to state functions, here companies and individuals will also be able to host functions, exhibitions, gatherings and conventions for large groups of people.

The exhibition hall, will be the first of its kind in Shah Alam, with an ability to

receive 1,800 guests at any one time. Pick from eight different shapes and sizes of seminar rooms to host any type of event.

An auditorium with a capacity seating for 225 people will also be included. A dining area will be allocated for stalls on the lower level for light refreshments with an option to hop into the SACC Mall right next door for more variety.

Scheduled to be completed in 2008, this project is already underway. The state government is excited with this project. This state-of-the-art centre will prove to be yet another facility provided for future and current investors in the state.

With an urban landscape, integration of new facilities and efficient road systems linking, this Expo Centre is set to mark its plot in Selangor, giving yet another reason for new investors to roll in.
