

Selangor State

The Northport

Investment Centre

Foreign and domestic investments are streaming steadily into Selangor what with Klang Valley 2 booming.

The Selangor State Government has implemented new initiatives that function to stimulate investment in the State to encourage growth in Klang Valley 2 and boost other areas that are growing.

Selangor has become by far a premier destination in terms of infrastructure, accessibility, incentives and investment climate. With the cooperation of the Selangor State Investment Centre (SSIC Berhad), with taking the next step towards streamlining the State's effort to generate investments.

The State clearly places a strong emphasis in endeavoring to generate and maintain investments. It is also evident that investors have placed their confidence in the State and its machinery by ensuring the success of their projects. This has contributed immensely to the growth of the State's economy.

Selangor plans to become a regional high-tech centre incorporating the latest and most sophisticated technology. SSIC has endeavored to implement more aggressive measures to attain the goals of the State Government. This will further develop the State and improve the livelihood of the people of Selangor.

SSIC's objective is to generate investment and encourage industrialization in Selangor. This will be done by facilitating the process of

investment in Selangor.

Incorporated on 22nd April 1999, SSIC's core aim is to cater to the needs of investors in Selangor. SSIC functions as a one-stop agency to provide information and advisory services to potential and existing investors. The establishment of SSIC Berhad was in line with the State Government's vision to have a specific agency dealing with investment related matters, ensuring that each matter is attended to aptly.

Foreign and local investors can now seek out SSIC to assist them in solving any problems that may occur with the setting up or day to day operations. Investors will also be provided with comprehensive information, advice and assistance through SSIC. Furthermore, SSIC acts as a networking agency to facilitate communication between the

government to investors, investor to investor, and vice versa.

From its incorporation, SSIC has received much recognition in particular from the Federal Government. It has also become a role model for other states to have a similar mechanism. SSIC's has played a huge role in gearing Selangor towards become a developed and industrialized State.

SSIC Berhad has achieved quality certification (MS ISO 9001 - 2000) from SIRIM less than a year after its establishment. Since, SSIC has also become the coordinator and secretariat for various State and international events such as the Selangor Industrial Award (AIS), East Asian Entrepreneurs Summits (EAES), seminars, workshops and dialogues.

At an international level, SSIC

has formed strategic collaborations with foreign embassies and business chambers in Malaysia and throughout the world.

SSIC has placed itself one notch above in heading towards the global era by becoming a member of the World Association Investment Promotion Agency WAIPA to expand its international networking.

SSIC Berhad also receive a Technology Business Review Asian Award 2007 for excellence in Government Services (Investment Promotions)

Dato' Mhd Jabar Ahmad Kembali is at the forefront of this operation. His wide experience with investments in Selangor has been to the advantage of the State. As Chief Executive Officer of SSIC Berhad, he has initiated new ideas

and concepts that have helped improve the investment climate in the State and to ensure that investors get the best deal.

Job opportunities from these investments in the past five years have grown by leaps and bounds with some 25,000 jobs created each year. The state is already planning for several industry clusters including Automotive logistics, steel, biotechnology, research and port related services, information technology and automation.

The agriculture sector in Selangor is fast growing.

Modern infrastructure, high technology, research and development.

Booming tourism sector with natural beauty enhanced.
