

A Different UNISEL

Being a learning university, Universiti Industri Selangor emanates dynamism fuelled by its vision and mission.

The university campus

The Selangor state is undisputedly the heartland of Malaysia. It is the most developed state in Malaysia with the highest concentration of industries.

This state is the hive of the nation's entrepreneurial activities. Most of the Federal Government's mega-projects are located in this state. For example, The Multimedia Super Corridor, the new administrative centre, Putrajaya, Kuala Lumpur International Airport (KLIA and Port Klang, the biggest port in Malaysia).

Selangor also has the most number of institutions of higher learning in Malaysia. Its infrastructure and communication facilities are among the best in the region. Selangor's State Government is the first to

Facilities are ready for the students

A view of the university

establish its very own university, Universiti Industri Selangor, better known as UNISEL.

UNISEL is noted for industrial-oriented courses of unsurpassed quality that will prove beneficial and advantageous for students who are looking for that competitive edge in the job market. Challenging and rigorous courses, carefully guided and inspired by an exceptionally capable academic team make UNISEL significantly above average.

Reputed as a 'thinking university', UNISEL is the place to be to polish and harness your talent and skills.

The Malaysian Advantage

Malaysia is a country with 26 million people, which consists of multi-racial and multi-cultural societies living in a friendly, peaceful and harmonious environment. This welcoming environment is appealing to students who come from far and wide.

Malaysian is popularly known as 'Asia's Food Paradise' and its sumptuous cuisine is hard to resist, to say the least. With Malay, Chinese and Indian delicacies up for grabs whether from the high street or road stalls, the food here is hearty and favoured by all.

Malaysia is also recognized as an education hub with more than 50,000 international students around the world testifying the worldwide acceptance of Malaysia Education.

World-class tertiary education is provided here

The State Advantage

To date, Selangor is the most developed state in Malaysia. Selangor is home to hi-tech companies, industries, close to ports, airports, most government and private organizations and Malaysia's largest concentration on education institutions and research facilities.

One University, Two Campuses

The UNISEL Shah Alam Campus, being in the state's capital city, houses four respective faculties. Here there is the faculty of Biotechnology and Life Sciences, Faculty of Biomedical and Health Sciences, Faculty of Industrial Art and Design Technology and Faculty of "UNISEL

Graduate School of Management". It is strategically located in the vicinity of Shah Alam, an ideal environment supported by good infrastructure. Students can enjoy the facilities provided in the vicinity that can be tapped for the benefit of students.

The UNISEL Bestari Jaya Campus is a sprawling 1,000 acres learning centre hosting the Faculty of Engineering, Faculty of Industrial Management, Faculty of Industrial Information Technology, Faculty of Education, Faculty of Language Studies, Faculty of Applied Science and Mathematics and Faculty of Social Sciences and Industrial Studies. It is situated about 60km north of the UNISEL Shah Alam Campus. Speaking of edu-

tourism, the main campus is incidentally close to the quiet hamlet of Kampung Kuantan, site of internationally renowned firefly colonies.

At A Glance

The State Government of Selangor with the aim of providing world-class tertiary education established Universiti Industri Selangor (UNISEL) in 1999. With two campuses, the university is home to more than 14,000 Malaysians and international students. To date, some 4,300 students have graduated from this prominent university.

With study terms from May to July, July to November and December to April, the academic program here offers students 24 different programs for Diploma level, four Foundation programs and 25 Bachelor's Degree programs to choose from. UNISEL also offers 12 different Post Graduate programs.

A Student's Life

There is more than one reason why UNISEL is the unequivocal choice for students who wish to obtain excellent

The university entrance

qualification. Apart from quality education led by knowledgeable professional, UNISEL also caters to the well-being of its students.

UNISEL provides students with a comprehensive list of features and facilities to cater to their students' learning needs and comfort during their years with at the university.

If you decide to live on campus in Bestari Jaya, all residences are conveniently located within the university campus itself, minutes away from your classes, labs, library, sports complex, hall and eating places. In Shah Alam, if you choose to live off campus and independently, the Students Affairs Staff at UNISEL will help you in searching for housing.

Whether your interest is geared towards academic, social, sports, adventure or leadership, there is a club or society for you to affiliate yourself with. Here at UNISEL, all students are encouraged to get involved in university activities and extra curriculum.

Moving away from your home to attend university can be exciting and

challenging, UNISEL provides you with the network of student support with personal and academic counselling as well as Students Representatives Council.

Home to more than 12,000 fulltime and part time students and 600 faculty members and staff, UNISEL's campuses offer a wide range of services and amenities:

- Student Centre
- Student Community Centre
- Training and Career placement Services For Graduate
